Website: rickhansen.abbyschools.ca

Email: rickhansen@abbyschools.ca

Grades: 9 - 12

Number of students: 650

Number of International Students: 10 FTE

RHSS has a focus on preparing students for professional careers and further success in post-secondary studies. Classroom learning is designed to replicate the skills students will need in the real world. By working in teams and across multiple disciplines, students develop skills that will help them be successful at post secondary institutions and in their future careers. Partnerships with post-secondary institutions and industry partners enhance learning opportunities for our students as they solve real world challenges.

Rick Hansen Secondary has a School of Science and School of Business which allows students to specialize in these areas in their senior years and provides an early transition for those students into university.

Specialty Programs/Classes:

School of Science, School of Business, Physics, Chemistry, Math, Business, Law, Economics, Accounting, Marketing, Fine Arts, Digital Art, Drafting and Design, Robotics, Human Performance Academy
